

Sunbury Heights PM
For the attention of
Mark Smith, General Director

July 20, 2007

Sunbury Height has been appointed by TPG Capital to carry out a build out project of approximately 750 sqm in the new office building located on Znamenka Street.

With the help of the team members the project has been completed within agreed and very challenging schedule and budget. The above results have been achieved due to professionalism and proactive attitude of project manager's assistant Mrs. Marina Chernova.

We would have no hesitation in deploying the services of Sunbury Heights again and would similarly recommend them to any company requiring professional project, cost or move management services.

With warm regards,

Rita Nedosekina
Head of Administration
